### BHOOTHNATH MOTORS

*Ride the Future  
Go Electric*

The ultimate expression of freedom

# About us

Bhoothnath Motors is an Indian Manufacturer of Electric three and Two wheelers founded in 2017 with a goal of replacing every gasoline bike and scooters currently on the road with battery-operated models.

Our founder who has been in the automotive industry for the past ten years, came to understand the importance of becoming green and supporting our Mother Nature through going green, efficient and excellent team members, ethical business tactics, happy investors and trustworthy suppliers.

Our company, Bhoothnath Motors which produces and distributes electric vehicles in the market was established in response to the exponential increase in the scarcity of non-renewable resources and the ever-growing threat of global warming
